ICTE'24

**INTERNATIONAL CONFERENCE
ON TEACHER EDUCATION**

**THEME : EMPOWERING EDUCATORS:
ADVANCING QUALITY EDUCATION FOR
SUSTAINABLE DEVELOPMENT**

CONFERENCE BACKGROUND

The 3rd international Conference on teacher education 2024 (ICTE'24) is aimed to support the National education Blueprint for quality education that fosters sustainable development. This conference advocates for not only equitable and inclusive quality education, but also lifelong learning opportunities for all.

OBJECTIVES

To establish and strengthen networks and smart partnerships both locally and internationally among higher education institutions, schools, and external agencies.

To foster scholarly activities and best pedagogical practices, particularly among educators.

To share expertise and knowledge on the implementation of educational practices at both school and higher education levels on a global platform.

To elevate the excellence of educators on the international stage.

CONFERENCE BACKGROUND

The papers are solicited on various topics or sub-theme as the following:

Education for Sustainable Development

Theories and Practices in Sustainable Education

Learning in the 21st Century

Digital Pedagogical Transformation

Early Childhood Education and Care

Effective Evaluation and Assessment

New Trends in Research

Inclusive Learning and Special Education

Pedagogical Methods & Educational Innovation

Health Education for All at All Ages

Artificial Intelligence in Education

Rabbani Education, the Core of Human Development

Karamah Insaniah as Catalyst for Character Development

WELCOME ADDRESS

YM HAJI RAJA IZUDDIN BIN RAJA AHMAD
DIRECTOR
Kolej Poly-Tech Mara Sdn. Bhd.

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamualaikum and Welcome to ICTE`24

Alhamdulillah, we praise and thank Allah S.W.T. for with His abundant permission, we can successfully organize the 3rd International Conference on Teacher Education 2024 (ICTE'24). First of all, I would like to congratulate all parties involved in making this international conference a success.

The ICTE`24 is an avenue that allows the sharing of resources and expertise among the education community in order to develop knowledge, share experiences, ideas as well as enhance possibilities especially meeting the demands of the Malaysian Education Development Plan (2021-2025).

I am very grateful for this event as it is significant to foster a culture of professional excellence that can elevate the organizing institutions as leaders in education. Thus, we hope that ICTE'24 will serve to elevate the East Coast Educational Institutions as leaders in creative and innovative education at the global level. It juxtaposes with the theme for this conference which is "Empowering Educators: Advancing Quality Education for Sustainable Development". Therefore, this Conference is our initiative to support the transformation of educational institutions, particularly in efforts to enhance the quality of lecturers, teachers and students in order to achieve the objectives of Sustainable Education by 2030.

It is our hope that the ICTE`24 will trigger a thinking culture towards dynamic education practices for the campus community besides becoming a catalyst of research and intellectual culture among educators. May Allah bless our effort for the conferences that we have organised and will organise in the future and may all educators continue to excel on the international stage. Have a good conference and memorable stay in Kota Bharu!

FOREWORD

YBHG. EN RADZUAN BIN RAZALI
Chief Executive Officer
Kolej Poly-Tech Mara Sdn. Bhd.

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Alhamdulillah, I am deeply grateful to ALLAH S.W.T. for His divine permission, the 3rd International Conference On Teacher Education 2024 (ICTE24) organised by Kolej Poly-Tech MARA Kota Bharu, Universiti Poly-Tech Malaysia and other co-organisers from local and international higher learning institutions has been successfully realised. The Management of KPTM Sdn Bhd is very pleased to support the organisation of this conference which aims to develop human capital that is skill-based and knowledgeable. I would like to take this opportunity to congratulate all the secretariats and committee members from the organising institutions for successfully holding this program as planned. Well done to those who contributed directly and indirectly to this educational endeavour.

KPTM Sdn Bhd has worked hard to support the steps taken by the Malaysian Ministry of Education (KPM) to implement the Sustainable Development Goals (SDG) in our country's education system through the fourth element, which is Quality Education. This element will not be achieved if we do not open opportunities for lecturers and students to be directly involved in the learning and teaching process which is more effective and up-to-date. Therefore, this conference is an opportunity for all academia to meet, share knowledge and discuss in order to achieve a better level of education. The juxtaposition of the theme 'Empowering Educators: Advancing Quality Education for Sustainable Development' reflects our unyielding efforts in strengthening the national education system where educators play a big role as agents of change in shaping the future generation to be more brilliant and competitive.

It is hoped that this International Conference on Teacher Education which combines expertise from public and private, local and international educational institutions will continue in the future and be able to achieve its goals as expected.

Thank you. May peace and blessings be upon you all.

KEYNOTE SPEAKER

PROFESSOR DR ABD KARIM BIN ALIAS
Professor of Food Technology
School of Industrial Technology,
Universiti Sains Malaysia (USM)

Professor Dr. Abd Karim Alias is a Professor of Food Technology at the School of Industrial Technology, Universiti Sains Malaysia (USM) and current Director of the Centre for Development of Academic Excellence. He has been teaching at USM for over 28 years (since 1994).

He is a strong advocate of leveraging the Internet as an alternative medium for learning and teaching. His mission is to step out from the physical boundary and comfort of his classroom, to reach out as many global learners as possible by sharing whatever little knowledge and skills he has for the benefit of mankind. To achieve this mission, he has developed and maintained several teaching portals, websites, online courses and blogs related to teaching/learning and research.

In 2002, he received the inaugural USM Excellent Educator Award and in 2010 he received the Anugerah Tokoh (Distinguished Person) in Anugerah Sanggar Sanjung.

Professor Dr. Abd Karim Alias was the recipient of the prestigious National Academic Award in 2008 for teaching from the Ministry of Higher Education (Malaysia). He has been recognised as the Top 50 Educators in Asia Pacific (2015) by Terrapin Asia and has been awarded with the Malaysia's Rising Star 2015 Award (Highest research citation in Agricultural Sciences/Food Science & Technology), Malaysia Research Star Award for four consecutive years (2016, 2017, 2018, 2019) and the World's Most Influential Scientific Minds by Clarivet Analytics. At national level, he is a Master Trainer for AKEPT and involved as a writer for Malaysia Education Blueprint 2015-2025 (Higher Education).

Since 2018, he has been advocating the idea of micro-credential as an enabler to support flexible and inclusive education. He has been working together with the Malaysian Qualification Agency (MQA) to develop the Guideline for the implementation of micro-credential in Malaysian educational institutions.

KEYNOTE SPEAKER

PROFESSOR DR RUDI SUSILANA M.Si
Dean of Faculty of Education Science
Universiti Pendidikan Indonesia

Dr. Rudi Susilana, M.Si. is a senior lecturer at Universitas Pendidikan Indonesia (UPI), specializing in Curriculum and Educational Technology. He is the dean of the Faculty of Education Science (FIP) at UPI, where his expertise contributes significantly to the development of educational goals, curriculum design, and instructional objectives. His research focuses on educational technology, including trends in digital education, multimedia tools, and post-pandemic instructional preferences, shaping the future of education.

Dr. Rudi Susilana has made notable contributions to education, particularly in the field of educational technology and curriculum development. His work is crucial in shaping modern instructional strategies and incorporating technology into education, such as promoting the use of learning management systems. He has extensively researched trends in educational technology, especially how digital tools can enhance learning experiences post-pandemic, a critical area as education adapts to new realities. Dr. Rudi Susilana has played a vital role in developing curriculum frameworks at Universitas Pendidikan Indonesia (UPI). His work emphasizes aligning curriculum objectives with national education goals, particularly in fostering cognitive, affective, and psychomotor development in students, such as designing lessons that promote critical thinking, empathy, and hands-on skills. He has contributed to the articulation of educational goals at various levels, from national education to instructional objectives. His recent research has focused on how educational institutions can adapt to post-pandemic realities by improving digital proficiency among students and educators, a key skillset for success in hybrid and online learning environments. Dr. Rudi Susilana's contributions lie at the intersection of educational theory and practice, focusing on the integration of technology in education and curriculum innovation.
